

Technische Betriebe Remscheid (TBR) operates various facilities, such as urban drainage and sewer maintenance, green space, playground and cemetery maintenance, road maintenance, waste disposal and street cleaning, vehicle workshops, etc., which form an economic and organisational unit.

*"We have been using the SEP sesam solution for our backup/recovery at Technische Betriebe Remscheid for a very long time. We really appreciate the diverse coverage of the solution, which offers us flexibility. In addition, there is the reliable operation and, if necessary, the fast and professional support from the SEP support team."*

*Armin H. Telle, IT management*
